NCR EasyPoint™ Xpress Payment

NCR self-service: Innovation with experience

- Enhances customer service
- Increases sales
- Improves operational efficiency
- Provides a comprehensive solution

With more than 45,000 EasyPoint™ self-service kiosks deployed worldwide, NCR offers innovation with experience. Our self-service solutions have been tested and proven in real-world settings to increase customer satisfaction, improve operational efficiencies, and maximize revenue.

Innovative Customer Service

NCR EasyPoint Xpress Payment is a kiosk solution that revolutionizes traditional payment transactions. Using an intuitive touchscreen interface, NCR Xpress Payment allows

Xpress Payment

In addition, the NCR Xpress Payment kiosk is UL certified

customers to quickly pay their bills without staff assistance. Bill payment accounts for up to 40 percent of customer service activity. Consumers want to complete these transactions in the most simple and time-saving manner possible, and the NCR Xpress Payment kiosk allows them to do so.

Designed by NCR human factors engineers, NCR Xpress Payment is easy to use, accepts multiple tenders – cash, check, credit cards and debit cards – and ties directly into your point of sale. Beyond its intuitive design, NCR Xpress Payment allows customers to complete transactions in the language of their choice.

Satisfied customers are loyal customers. By enhancing the consumer experience, NCR Xpress Payment helps you to increase customer loyalty and revenue.

Drive Top-line Growth

NCR Easypoint Xpress Payment shortens customer wait time, allowing you to recover payments from customers who might otherwise have become frustrated and walked away.

The solution also improves payment accuracy, addressing the issue of incorrect or missing payments, which can reduce margins. Beyond recovering existing payments,

NCR EasyPoint™
Xpress Payment

NCR EasyPoint Xpress Payment can be leveraged as a cross-selling and up-selling tool, with full multi-media capability to promote store offers or other incentives.

Maximizing Efficiency

NCR Xpress Payment allows you to get more for your labor dollar. Rather than accepting payments, your staff can now be redeployed to perform revenue-generating activities on the sales floor.

In addition to maximizing labor efficiency, NCR Xpress Payment makes record keeping more efficient, recording all payments received, including cash denominations, for easy payment reconciliation. The kiosk also increases security and minimizes theft compared to payment drop boxes.

Assured Reliability and Serviceability

To ensure the highest quality, reliability and safety, the NCR Xpress Payment kiosk undergoes comprehensive environmental and compatibility testing, and is manufactured under strict NCR standards. The retail-hardened NCR Xpress Payment kiosk offers a stable, managed platform with Intel-embedded components that support longer lifecycles for superior investment protection. NCR Xpress Payment is designed to dramatically decrease repair times by implementing unprecedented accessibility and ease of service. The cabinet design and placement of components enable straightforward visual inspection and simple replacement in a fraction of the time necessary for other solutions.

Hardware Specifications
- 15" color high-quality touchscreen
- Celeron® 2.0GHz
- 256 MB RAM (upgradeable)
- 40 GB hard disk drive (upgradeable)
- 4 USB 2.0 (2-12V, 2 standard)
- 2 powered RS232 ports
